

National Registry of Certified Medical Examiners

Federal Motor Carrier Safety Administration

What is the National Registry of Certified Medical Examiners?

The Federal Motor Carrier Safety Administration (FMCSA) will soon propose the National Registry of Certified Medical Examiners (NRCME) program to produce trained, certified medical examiners who can effectively determine if a commercial motor vehicle (CMV) driver's health meets FMCSA medical standards. The NRCME program represents an important step in gaining and maintaining public trust and confidence in FMCSA's continued efforts to improve highway safety.

FMCSA has established the NRCME Web site to provide medical examiners, commercial motor vehicle drivers, motor carriers, and the public access to convenient, reliable information regarding the NRCME program. For more information on the program, please go to: <http://www.nrcme.fmcsa.dot.gov>.

How will the National Registry of Certified Medical Examiners benefit you?

COMMERCIAL MOTOR VEHICLE DRIVERS & MOTOR CARRIERS: Will have convenient access to a current list of certified medical examiners across the United States.

MEDICAL EXAMINERS: Will have their contact information made universally available to CMV drivers seeking medical examinations.

SAFETY GROUPS & COMMERCIAL MOTOR VEHICLE INDUSTRY ASSOCIATIONS: Will have continuous access to NRCME program information and FMCSA medical standards, rules and regulations related to the commercial motor vehicle industry.

ACCREDITED EDUCATORS: Will have an opportunity to provide FMCSA-required training to potentially 400,000 medical examiners .

FEDERAL, STATE & LOCAL GOVERNMENT TRANSPORTATION AGENCIES: Will have convenient access to a current list of certified medical examiners across the United States.

LABOR ORGANIZATIONS: Will have continuous access to NRCME program information and FMCSA medical standards, rules and regulations related to the commercial motor vehicle industry.
